It is claimed by motormen who operate the cars running up the hill that the heavy snow is not as much to blame for causing the cars to stop running on the line as are the motorists who will persist in driving on the tracks, making a hard coating of snow on the rails over which the light "electrics" cannot make their way.

Declared Sarah Bernhardt, But Her Doctors Skeptical.

Paris, Dec. 30 (By the Associated Press).—Whether Sarah Bernhardt, who announced emphatically yesterday that she "was far from being finished" and would return to her beloved stage next Wednesday, can persuade her physicians that she is ready for the opening performance of "Ug Suet De Roman" seems problematical.

The actress' collapse is attributed to overwork rather than to organic ailment, but although she has set her heart on resuming her work as soon as possible, doctors and friends believe it may be necessary to keep her from the theatre a while longer.

"If I rest too long, I wouldn't live," Bernhardt asserted. She explained that she had promised Sacha Guitry, author of her new play, that she would be ready to act Wednesday evening.

"I shall be there," she added. "You can bet on it."
